MUNICIPAL MANAGER'S REPORT

Submitted herewith is the annual report of the Village of Middlebury to the Board of Trustees and Citizens of the Village of Middlebury for the year ending December 31, 1943.

We have just completed a more successful financial year than 1942, which was the most successful year of any year within our records and undoubtedly within the history of the Village. The net Village indebtedness is now \$53,971.37, which is a decrease in net indebtedness of \$9,078.42 for the year 1943.

The Water Department having decreased its indebtedness by an amount of \$3,862.55 during the year 1943, leaving a net indebtedness of \$54,472.38 for the Water Department or a total net indebtedness for the Village and the Water Department of \$108,443.75, which is a decrease in indebtedness for the year of \$12,940.97.

This is a major accomplishment when taking into consideration the fact that Public Works for the past year cost us approximately two thousand dollars more than in 1942. Increased costs of labor and material accounted for the major portion of this two thousand dollars and the balance was used for the purchase of a slightly larger amount of tar and asphalt, which was allotted by the Federal Government and the State Highway Department to the Village this year.

There were three outstanding factors which mainly accounted for this healthy financial condition. The first two factors were the same ones which aided us so greatly in 1942, namely: the first was our co-operation with the Federal Government in its program for no new construction which could be deferred; the second was our concerted attempt to decrease the cost of winter highway maintenance by less sanding and shovelling and hauling; the third factor is the huge increase in delinquent tax collection, which was brought about by the unstinted efforts of John Calhoun, who has done a wonderful job in the delinquent tax collection department. Approximately two thousand dollars in delinquent taxes were collected during the past year, leaving approximately only two thousand in unpaid or outstanding taxes, which is a reduction of about fourteen hundred dollars in unpaid taxes from last year's balance.

Money for municipal purposes was borrowed, during the past year, at an interest rate of 5-10 of one percent for tax anticipation notes and 63-100 of one percent for current expense notes. These rates are exactly the same rates as for 1942.

Since our program of decreased winter maintenance seems to work with no undue hardships on anyone, it is again proposed to follow this same routine for the coming year, and since we have found that we can live within a budget with a tax rate of \$1.70 and still

reduce our debt by a reasonable amount, if it is not found necessary to undertake any major sidewalk repairs or replacements, or any major sewer maintenance, we have recommended a general tax rate of \$1.70, which is a five cent reduction from the tax rate of 1941. The Reo Pumper is worn out and no longer reliable, therefor, a special equipment tax of nine cents is recommended for the purchase of a new chassis. This chassis would replace the Reo and the Essex Chemical which have saved the taxpayers many thousands of dollars in fire losses and direct taxes by answering still alarms, getting the fire out while it is still a small fire, without a general alarm calling the entire department.

Our successful year has been accomplished only by the full cooperation and backing given to your Manager by the citizens, the Trustees, all other Village Officers, heads of Departments and Village employees, and I wish to take this opportunity to express my appreciation for your assistance and cooperation.

Respectfully submitted,

ELWIN C. BOYDEN

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

To the Municipal Manager:

The following report and inventory taken December 31, 1943 is herewith submitted:

Thirty-two still alarms and five general alarms were answered in the village. Assistance was given by the department in thirteen out of town fires, at an income to the department of \$304.00.

Purchases this year included helmets, one fire extinguisher, 50 ft. of 1" hose and miscellaneous items, such as, hose washers, flashlights and first aid kits.

The following recommendations are made: that a new chassis be purchased to replace the present Reo chassis; 500 feet of double jacket 2½" hose.

The Chief and department members wish to thank all the local people for any assistance they have given the department in the past year.

INVENTORY

Building—Fire Station	\$10,000.00
1 American LaFrance Pumper	5,000.00
1927 Reo Truck equipped with pump, booster tank, 200 ft. of 1" hose,	500.00
1 Essex Chemical Truck	25.00
Ladder truck and three ladders	50.00
1300 ft. of 2½, 1933, 1934, 1940 double jacket hose	700.00
500 ft. 1941, 1½" single jacket hose	300.00
50 ft. of 1½" hose, 1942	37.50
8 2½ gal. Extinguishers	75.00
5 Indian fire guns	75.00
7 Hydrant gates	50.00
3 Hydrant wrenches—	5.00
9 Spanners	4.00
1 Tungar Rectifier	5.00
1 Pull down hook and chain	6.00
50 ft. Garden hose	2.00

15 Rubber Coats	90.00

WATER DEPARTMENT

MUNICIPAL MANAGER'S REPORT

To the Board of Water Commissioners and citizens of the Village of Middlebury:

Submitted herewith is the annual report of the Village of Middlebury Water Department for the year ending December 31, 1943.

Our distribution system consists of approximately twenty-six miles of water mains, ranging in size from four to ten inches in diameter, 78 hydrants, six hundred and eighty-seven services of which one hundred and thirty-nine are metered and five hundred and forty-eight are on the flat rate system, and the following gates: 46 four inch, 47 six inch, 9 eight inch and 10 ten inch.

During the past year, with tremendously increased costs for labor and material our operating expenditures have increased approximately two thousand dollars, with practically the same income as for 1942. This results in a reduction in debt of slightly less than four thousand dollars, leaving the net indebtedness of the Water Department at \$54,472.38. We are very fortunate in being able to make this reduction, after completing very expensive repairs with the assistance of a diver on the eight inch under river main crossing Otter Creek.

The outstanding delinquent water bills have, again this year, been kept to a minimum at a delinquent total of \$118.66 as of January 1, 1944. Every delinquent bill has either been paid or the service has been shut off.

The major accomplishments in construction during the past year are as follows: Cleaned Bristol Notch small brook reservoir for emergency use, erected new fence around Bristol Notch reservoir, cleaned algae from Palmer Pond, completed repairs to stop erosion on east bank of Palmer Pond, and rebuilt fence around Palmer Pond. We replaced three hydrants, constructed two new meter wells, installed two new service meters, connected two new services, repaired twenty-three leaks in services and repaired thirty-five leaks in mains.

I wish to thank the Board, the employees, and the Citizens for their cooperation and assistance, which has made possible this very successful year for the Water Department.

Respectfully submitted,
Municipal Manager
ELWIN C. BOYDEN

TO THE VOTERS OF THE VILLAGE OF MIDDLEBURY

We have made an examination of the accounts and vouchers of the Village and Water Department, as submitted to us by the Municipal Manager and Treasurer, for the twelve months period ending December 31, 1943, and have reconciled the various cash balances with their respective bank statements. The securities in the custody of the Treasurer, carried as an investment for the Water Department, have been checked and found in order.

In our opinion these records fairly set forth the financial condition of the Village and Water Department as of December 31, 1943 and the transactions for the twelve months ending on that date.

J. WILBER SMITH
ROBERT D. BOWLES

Auditors

Middlebury, Vt.

Annual Village Meeting, 1944

WARNING

The legal voters of the Village of Middlebury, Vermont, are hereby warned and notified to meet at the Town Hall in said Village on Wednesday, January 19th, 1944, at 10 o'clock A. M., E. W. T., to transact the following business: to wit:

FIRST—To elect Village Officers for the year ensuing (Australian Ballot—polls open from 10 A. M. to 2 P. M. EWT)

SECOND—To act upon the reports of the Village Officers as submitted by the Auditors.

THIRD—To vote a tax for maintaining and repairing roads and walks in said Village.

FOURTH—To vote a tax to pay the expenses for the ensuing year and to pay outstanding orders and obligations of the Village, and interest.

FIFTH—To see whether the Village will rescind the vote

taken at the Annual Meeting in January 1940, providing for the election of officers by the Australian Ballot system, and to enact that such system shall not be used in future Village Meetings.

SIXTH—"Will the Village authorize the Auditors of the Village to employ the services of an Accountant from the office of the Auditor of Accounts as provided in No. 55 of the Acts of 1937 to conduct an audit of the accounts of the Village?"

SEVENTH—To see if the Village will vote as requested by the U. S. Navy, to ins'all chlorination equipment on the water supplies from Bristol and Palmer Spring provided that the U. S. Navy and Middlebury College will pay for equipment and for the cost of its installation.

EIGHTH—To see if the Village will authorize the Manager and Trustees to purchase a new chassis for the fire truck; and, if so, whether a tax of \$.09 on the grand list shall be voted to meet the expense thereof.

NINTH—To transact any other business proper to be done. The meeting is called at the above hour because of the legal requirements that in the election of officers the polls shall close at two o'clock E.W.T. in the afternoon; it is expected that at the close of the election of officers, the meeting will be adjourned to the hour of eight o'clock P. M. for the transaction of other business noted in the above warning.

By Order of Trustees,

HARRY L. CUSHMAN

Village Clerk

MUNICIPAL MANAGER'S REPORT

To the Board of Trustees and Citizens of the Village of Middlebury:

Submitted herewith is the annual report of the Village of Middlebury for the year ending December 31, 1944.

We were unable to live within our budget for the past year, and were very fortunate to be able to decrease the Village indebtedness approximately \$30,000 to a net Village indebtedness of \$53,101.49. Increased expenditures which were not considered in our last year's budget made it impossible to effect any further savings. These increased expenditures were mainly due to three factors. First, the increased cost of labor and material. Second, additional highway work, in order to take full advantage of available State Aid money. Asphalt highway maintenance work was available in any quantity and was unrated this year, which is undoubtedly one reason for increasing the State Aid funds. Third, the increased costs of repair, maintenance, and operation of our equipment, which is steadily getting older with no chance of immediate replacement.

In spite of a definite attempt to curb winter maintenance expenditures, the costs rose above the previous year's expense, due to the large amount of snowfall, which was the greatest in many, many years.

Again this year, delinquent tax collections, in an approximate amount of \$1,200.00, were very successful through the efforts of John Calhoun, in reducing outstanding delinquent taxes approximately \$800.00 to an amount now outstanding of \$1,169.17.

Money for municipal purposes was borrowed, during the past year, at an interest rate of 75-100 of one percent for both tax anticipation and current expense notes. This is an increase of 25-100 of one percent for tax anticipation notes and an increase of 12-100 of one percent for current expense notes. However, after considering the money market at this time, it will be realized that these rates are very advantageous to the Village.

Since our tax rate of \$1.70 allowed practically no debt reduction with these increased costs for the year, while maintaining the present level of public services which the taxpayers insist upon, making it necessary to borrow \$2,000.00 in order to meet the payment of two \$1,000.00 serially maturing bonds coming due each year, which is the very poorest type of financial policy, the Board and myself are recommending a tax rate of \$1.90 for the coming year, even though it requires a tax of \$0.23 to raise \$4,000.00 and we know that our labor and material costs will certainly be no less for the coming year, than for the past. Further, it seems advisable to

reduce our debt at this time, since it is readily agreed that it is one of the soundest financial policies to decrease indebtedness during this opportunity to express my appreciation for your assistance and cooperation.

It has also been necessary to insert an article in the warning for action by the voters to raise a special equipment tax of twelve cents for an air blast fire alarm, since taxpayers have many times criticized our present siren when it refused to function properly, although every taxpayer should realize that the siren has frozen every winter and will continue to freeze every winter until some action is taken. This condition, of course, does not tend to keep out the losses at a minimum, nor does it help us to get beneficial rates for insurance, and the situation will get increasingly worse until it is remedied.

We could not have completed the past year as successfully as we have, except by the co-operation and backing given to your Manager by the citizens, the Trustees, all other Village Officers, Heads of Departments and Village employees and I wish to take this opportunity to express my appreciation for your assistance and cooperation.

Respectfully submitted,

ELWIN C. BOYDEN
Municipal Manager

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

To the Municipal Manager:

The following report and inventory taken December 31, 1944 is herewith submitted:

Thirteen still alarms and nine general alarms were answered in the village. Assistance was given by the department in seven out of town fires, at an income to the department of \$171.00.

Purchases this year included 500 feet of double jacket 2½" hose, four smoke masks and a new Dodge Chassis.

The following recommendations are made: to purchase 500 feet of 1½" hase, 250 feet of booster hose; and that the roof of the fire station needs repairs and the building needs painting.

The Chief and department members wish to thank all the local people for any assistance they have given the department in the past year.

INVENTORY

	Building—Fire Station	\$ 10,000.00

REPORTS

of the

WATER DEPARTMENT

WATER DEPARTMENT MUNICIPAL MANAGER'S REPORT

To the Board of Water Commissioners and citizens of the Village of Middlebury:

Submitted herewith is the annual report of the Village of Middlebury Water Department for the year ending December 31, 1944.

Our distribution system consists of approximately twenty-six miles of water mains, ranging in size from four to ten inches in diameter, seventy-eight hydrants, six hundred and eighty-eight services, of which one hundred and forty-three are metered and five hundred and forty-five are on the flat rate system, and the following gates: 46 four inch, 50 six inch, 9 eight inch, and 10 ten inch.

During the past year, with tremendously increased costs for labor and material our operating expenditures have increased approximately one thousand dollars over the previous years operating expenditures which is three thousand dollars over 1942, with practically the same income as for 1943. This results in a retention in debt of slightly more than two thousand dollars, leaving the net indebtedness of the Water Department at \$52,158.16. We are very fortunate in being able to make this reduction, after completing the construction of a chlorinating house on the Bristol Notch Line at a cost of \$4,465.73, of which Middlebury College paid \$3,000.00 and the purchase of two new chlorinating units, one on the Bristol Notch Line and the other at Palmer Springs. The cost of these two units was \$1,242.50 of which the United States Navy paid \$860.00, leaving a net deficit in the Water Department of \$1,848.25.

The outstanding delinquent water bills have, again this year, been kept to a minimum at a delinquent total of \$95.47 as of January 1, 1945. This is the lowest total for delinquent water bills since the year 1928. Every delinquent bill has either been paid or the service has been shut off.

The major accomplishments in construction during the past year are as follows: Constructed a new chlorinating house on the Bristol Notch Line, installed chlorinators at this Bristol Notch chlorinating house and at Palmer Springs. Cleaned Bristol Notch small brook reservoir for use. We constructed one new meter well, installed four new services meters, connected one new service, renewed five old services, repaired fifteen leaks in services and repaired twenty-one leaks in mains.

I wish to thank the Board, the employees and the Citizens for their co-operation and assistance, which has made possible this very successful year for the Water Department.

Respectfully submitted,

ELWIN C. BOYDEN
Municipal Manager

TO THE VOTERS OF THE VILLAGE OF MIDDLEBURY

We have made an examination of the accounts and vouchers of the Village and Water Department, as submitted to us by the Municipal Manager and Treasurer, for the twelve months period ending December 31, 1944, and have reconciled the various cash balances with their respective bank statements. The securities in the custody of the Treasurer, carried as an investment for the Water Department, have been checked and found in order.

In our opinion these records fairly set forth the financial condition of the Village and Water Department as of December 31, 1944 and the transactions for the twelve months ending on that date.

J. WILBER SMITH
ROBERT D. BOWLES

Auditors

Middlebury, Vt.

Annual Village Meeting — 1945

WARNING

The legal voters of the Village of Middlebury, Vermont, are hereby warned and notified to meet at the Town Hall in said Village on Wednesday, January 17th 1945 at 8 o'clock p.m. to transact the following business; to wit:

FIRST—To elect a Moderator and Village Clerk.

SECOND—To act upon the reports of the Village Officers as submitted by the Auditors.

THIRD—Shall the Village vote to prohibit all advertising signs having an area of over forty square feet over all. This regulation to go into effect at once.

This shall not affect business signs on property which pertain exclusively to the property itself. its sale, its rental, or business conducted thereon."

FOURTH—To see if the Village will authorize the Manager and Trustees to purchase a new air blast fire alarm; and, if so, whether a tax of \$.12 on the grand list shall be voted to meet the expense thereof.

FIFTH—To vote a tax for maintaining and repairing roads and walks in said Village.

SIXTH—To vote a tax to pay expenses for the ensuing year and to pay outstanding orders and obligations of the Village with interest.

SEVENTH—To elect the remaining Village Officers.

EIGHTH—To transact any other business proper to be done.

By Order of Trustees

HARRY L. CUSHMAN

Village Clerk

Middlebury, Vermont.

December 28, 1944.

MUNICIPAL MANAGER'S REPORT

To the Board of Trustees and Citizens of Middlebury:

Following is the annual report of your Municipal Manager for work done in the Village of Middlebury for the year ending December 31, 1945.

Your present manager having taken office of December 10, 1945, information presented will necessarily be assembled from records kept by his predecessors and other employees.

The following roads were surface treated with asphalt: College Street, Shannon Street, Weybridge Street, So. Main Street, South Street, High Street, Seminary Street, 1.9 miles were honed or dragged and 1.6 miles given a seal coat.

I hesitate to make any recommendations until another year when I should be more familiar with the problems of this Village. I will, nevertheless, bring to your attention the fact that the mechanical equipment for highway use is in very poor shape. Repairs are likely to cost more than the purchase of new. The purchase of one new truck, heavy enough to do a good plowing job, but not so heavy that it will be too expensive to use during the warmer months on general maintenance and construction work, should be given serious consideration.

Respectfully submitted,

ERNEST E. LOTHROP
Municipal Manager

ANNUAL MEETING — 1945

January 17, 1945

Meeting called to order at 8:00 o'clock by the Moderator Dr. H. I. Slocum.

Moved by W. H. Waite that the reading of the Warning be dispensed with at this time as each article is read and taken up separately seconded by Richard Hubbard and carried.

1. Moved by Wright Caswell and seconded by Mrs. Ufford that Dr. H. I. Slocum succeed himself as Moderator. Carried.

Moved by Dr. P. E. Mellen and seconded by Arthur Hinman that H. L. Cushman succeed himself as clerk. Carried.

2. Moved by Wayne Bosworth that the reports of the Village Officers as submitted by the Auditors be accepted and filed, seconded by M. Brown and carried.

3. Moved by William Upson that the Article to prohibit all advertising signs having an area of over forty square feet over all, be adopted, seconded by M. D. Marshall and carried.

4. Richard Hubbard asked the Village Manager for an explanation of what the new air blast alarm was to consist of and whether it met the insurance requirements. This was answered by Mr. Boyden. Moved by Richard Hubbard that this Article be adopted and the air blast fire alarm be purchased and that a tax of .12 be voted to meet the expense thereof, seconded by Wright Caswell. Carried.

5. Moved by W. H. Waite that a tax of \$1.17 be voted for maintaining and repairing roads and walks in the Village, seconded by Mr. Sholes. Carried.

6. Moved by W. H. Waite that a tax of \$.73 be voted for the payment of expenses for the ensuing year and to pay outstanding orders and obligations with interest, seconded by Geo. Meade. Carried.

7. Moved by Wayne Bosworth and seconded by Bruno M. Schmidt that H. L. Cushman succeed himself as Village Treasurer, carried. Moved by Bruno Schmidt that Peter J. Hincks and John Burke succeed themselves as Trustees. Mr. Hincks asked to have his name withdrawn but this was not done and Mr. Chester Ingalls moved that the nominations be closed and that the Clerk cast one ballot for the election of the two nominated. Carried.

Moved by M. D. Marshall that Mr. R. Drake succeed himself as Water Commissioner, seconded by Geo. Mead and William Upson. Carried.

Moved by William Upson and seconded by Manager Boyden that a vote of thanks be given Mr. Drake for his work on the Chlorinator. Carried.

Moved by Wayne Bosworth and seconded by Ralph Elliott that Robert Bowles and J. Wilber Smith be reelected as Auditors. Carried.

Moved by Wayne Bosworth and seconded by John Bowker that Elizabeth Fitzpatrick succeed herself as Tax Collector. Carried.

Mr. A. Murray and M. Nappi spoke on the condition of the road, as to snow and holes, around the railroad station and freeze locker. Moved by Bruno Schmidt that the Manager be requested to have the road snow plow go over this road, seconded by Chester Ingalls. Carried.

Rev. Paul Maves, moved that the Moderator appoint a committee of not more than five persons to study the long term development of Middlebury's recreational resources in accordance with the needs of the situation, including such things as parks, playgrounds, picnic places, swimming pools, and others and report with recommendations at the Village Meeting in 1946, said report to be printed as a part of the Village report.

The Moderator appointed the following committee: Rev. Paul Maves, charman, Mrs. John Bowker, Mr. Carl Lane, Mr. Beach Bly, Mr. Alan Carter.

Moved by Wayne Bosworth and seconded by Richard Hubbard that the meeting be adjourned. Carried.

ATTEST: HARRY L. CUSHMAN

Town Clerk

POLICE REPORT

To the Municipal Manager:

I herewith submit the annual report of the Police Department for the period ending December 31, 1945.

The following arrests were made during the year:

Intoxication	9
Driving Intoxicated	1
Driving without owner's consent	1
Defective Equipment	1

Lost or stolen—Property recovered:

Bicycles	7
Pocket Books	3
Wrist watch	1
Automobiles — both recovered	2
Disposal of stray dogs	2
Disposal of injured cow	1
Doors unlocked	22

All persons arrested plead guilty

I have received much valued assistance from the High Sheriff and his Deputies, Special Officers and the Officers of the Motor Vehicle Department for which I express my appreciation.

Respectfully submitted,

DONALD J. WILLIAMSON
Chief of Police

Middlebury, Vermont

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

To the Municipal Manager:

The following report and inventory taken December 31, 1945 is herewith submitted:

Thirteen still alarms and ten general alarms were answered in the village. Assistance was given by the department in ten out of town fires, at an income to the department of \$488.00.

New equipment consists of 500 ft. 1½" hose, 400 ft. 1" hose, 6 hydrant wrenches, 4 smoke masks, 1 car sirene, 1 alarm blast. The roof has been repaired.

The following recommendations are made to purchase: 500 ft. double jacket hose, 1-1" nozzle, 1-2½" fog nozzle, 1-1½" fog nozzle, 4 new extinguishers, painting of building and decorating interior of interior of building. Some method of drying hose other than the old rack type.

INVENTORY

REPORT OF THE COMMITTEE ON RECREATION

TO THE VILLAGE OF MIDDLEBURY:

Your Committee on Recreation, as a result of numerous meetings both as a Committee and as participants in the meetings of other groups interested in recreation and civic development, reports as follows:

In general, we believe that Middlebury has adequate recreational resource at present which should be fully developed and provision made for maintenance and expansion. These include, as a result of engaging a full time physical education director for the High School, a large and growing athletic and competitive sports program, the Chipman area for picnicing, camping and winter sports, a village skating rink, a school playground park, adequate school social programs, healthy recreational and social groups, such as Boy and Girl Scouts, 4-H Clubs, various citizen clubs, a Winter Sports Club, active Church sponsored social groups and private recreational enterprises. However, since many of these groups duplicate or overlap the work of each other, we believe that an effort at simplification should be attempted.

A planning Council organized this year and consisting of one representative from each organization in the village, already exists. From it could stem a unified plan embracing the recreational needs of all groups and ages. This group, with public support, sponsored a summer recreational program this year as an experiment. Under a paid director, who was greatly handicapped by lack of recreational equipment and definite playground areas, a varied program was carried out during July and August. In this program, the Community House continued its work with the younger children groups. The question of swimming was given special attention and a bus operated to Lake Dunmore beaches.

One of the most obvious needs which will assure a complete and lasting recreational program is a central recreational area, properly equipped. We believe that the so-called "Fair Ground" project, already planned and engineered but delayed because of national de-

fense and then war conditions in 1939 should be now continued. Development is the responsibility of no one group or government body; but of *all*. Ways and means are suggested in the attached report of Professor Harry M. Fife.

There seems to be no great divergence of public opinion on the general question of this project or of recreation as a public responsibility. However, there exists no agency empowered to bring the various interests concerned together. To register progress, we must have an authority recognized by Town and Village government, the School Board, Prudential Committee and civic and citizen groups.

In view of these findings, your Committee makes the following recommendations:

1- That the Village Board appoint a Commission, to be known as a Joint Commission and to include representatives delegated by the School Board, the Town Board and others, to continue the essentials of the plan of 1939, called "The Fair Ground Park", as published and mapped in the annual Report of School District 4, 1938-9; said Commission to be empowered to act on behalf of the parties concerned and the public, to hold hearings and seek public will and opinion in matters of park layout, design, the plan and order of development, to accept pledges of co-operation, effort and money of others and to lay before the voters, by an appropriate article in the Warning, the extent and amount of the Village's share of the financing. This Commission is to recognize that its function is not only to adopt a long-term program for the development of our recreational resources but to activate and supervise the first phases of such development.

2- That the Village Board co-operate with the School Board and the Prudential Committee, by making available labor, materials and equipment, in the matters of—

- a. Maintaining in a clean sanitary state the playground park west of the Graded School during the summer months.
- b. Maintaining, especially in the matter of snow removal, the skating rink in the same area.
- c. The immediate ditching and flooding of an adjacent area to serve as a practice skating rink for the *exclusive* use of small children.

Respectfully submitted,

Village of Middlebury Committee on Recreation

REPORTS

.

of the

WATER DEPARTMENT

WATER DEPARTMENT MUNICIPAL MANAGER'S REPORT

To the Board of Water Commissioners and citizens of the Village of Middlebury, Vermont: .

I am submitting for your consideration the manager's report of the work on your Water Department for this year ending December 31, 1945.

Having been in charge of this work only a few weeks, my report necessarily will be obtained from records left by my predecessor.

The distribution system consists of approximately twenty-six miles of mains, ranging in size from four to ten inches in diameter, seventy-eight hydrants, 688 services of which 143 are metered and 545 on the flat rate system, and the following gates: 46 four inch, 50 six inch, 9 eight inch, and 10 one inch. No new mains have been added this year and no new gates set. One new meter was installed. One two-way hydrant replaced on Weybridge Street. Sixteen new house services of $\frac{3}{4}$ " copper renewed, 21 leaks have been repaired on the mains and 19 repaired as laterals.

Chlorinators have been in operation at the Palmer Pond pumping plant and on the Little Notch water supply line throughout the year. The Chlorinator at Palmer has functioned admirably. There have been some difficulties with the chlorinator on the Bristol line. These are being gradually overcome by the cooperation of the machine builder, in machine modification, and in furnishing renewal parts of materials unobtainable during the war. We have also purchased and installed a certain auxiliary equipment.

Respectfully submitted,

ERNEST E. LOTHROP

Municipal Manager

TO THE VOTERS OF THE VILLAGE OF MIDDLEBURY:

We have made an examination of the accounts and vouchers of the Village and Water Department, as submitted to us by the Municipal Manager and Treasurer, for the twelve months period ending December 31, 1945, and have reconciled the various cash balances with their respective bank statements. The securities in the custody of the Treasurer, carried as an investment for the Water Department, have been checked and found in order.

In our opinion these records fairly set forth the financial condition of the Village and Water Department as of December 31, 1945 and the transactions for the twelve months ending on that date.

ANNUAL VILLAGE MEETING — 1946

WARNING

The legal voters of the Village of Middlebury, Vermont, are hereby warned and notified to meet at the Town Hall in said Village on Wednesday, January 16th 1946 at 8 o'clock P. M. to transact the following business; to wit:

FIRST — To elect a Moderator and Village Clerk.

SECOND — To act upon the reports of the Village Officers as submitted by the Auditors.

THIRD — Will the Village authorize the auditors of the Village to employ the services of an accountant from the office of the auditor of accounts as provided in No. 55 of the Acts of

1937 to conduct an audit of the accounts of the Village? *1935*

FOURTH — Shall the Village of Middlebury without cost to itself of money, goods or services, now or in the future, sponsor Boy Scouting within the Village?

FIFTH — To see if the meeting will vote to take advantage of Chapter 153 of the Public Laws of 1933, relating to zoning thereto.

SIXTH — To see if the voters favor changing the date of the annual Village Meeting to the last Wednesday in January or the first Wednesday in February in each year, and, if so, to take appropriate steps looking to such change. *yes and Wed is better*

SEVENTH — To vote a tax for maintaining and repairing roads and walks in said Village.

EIGHTH — To vote a tax to pay expenses for the ensuing year and to pay outstanding orders and obligations of the Village with interest. *.77*

NINTH — To elect the remaining Village Officers.

TENTH — To transact other business proper to be done.

By Order of the Trustees
Harry L. Cushman
Village Clerk
